

The Joshua Center Story

The Joshua Child and Family Development Center was founded in 1996 to improve the lives of children and families living with Tourette Syndrome and Obsessive Compulsive Disorder. In recent years we have expanded our focus to include Asperger Syndrome. In 2008 we changed our name to Joshua Center for Neurological Disorders to better reflect what we do. We believe it takes a village to raise these children - the doctor, counselor, teacher and families working together to make it possible for these children to succeed. We are still the lone eagle - the only clinic in the country providing this support.
