

The Joshua Center Story

The Joshua Center for Neurological Disorders was founded in 1996 to improve the lives of children and families living with Tourette Syndrome and Obsessive Compulsive Disorder. In recent years we have expanded our focus to include Asperger Syndrome and High Functioning Autism. We believe it takes a village to raise these children - the counselor, teacher and families working together to make it possible for these children to succeed. We are still the lone eagle - the only clinic in the country providing this support.
